

Day 38 coding Statement : Write a Program to print Non-repeating characters in a string

Description : Get a string as the input from the user and print the non-repeating characters in a string.

Input : Hello

Output : H e o

Program :

```
package com.talentbattle.codingchallenge;

import java.util.Scanner;

public class No_repeating_char {

    public static void main(String[] args) {
        // TODO Auto-generated method stub
        Scanner scan = new Scanner(System.in);
        System.out.println("Enter a String : ");
        String s = scan.nextLine();
        int[] frequency = new int[256];

        for(int i = 0; i<s.length();i++)
        {
            frequency[s.charAt(i)]++;
        }
        System.out.println("Non repeating char are : ");

        for(int i = 0; i<256;i++)
        {
            if(frequency[i]==1)
            {
                System.out.print((char)i+" ");
            }
        }
    }
}
```
