

Day 29 coding Statement : Write a Program to concatenate a string.

Description : Get two strings as input from the user and then concatenate it.

Input : Enter first string

Hello

Enter second string

Hi

Output : HelloHi

Program :

```
package com.talentbattle.codingchallenge;

import java.util.Scanner;

public class Concatenate_string {

    public static void main(String[] args) {
        // TODO Auto-generated method stub
        Scanner scan = new Scanner(System.in);
        System.out.println("Enter a String");
        String str = scan.nextLine();

        System.out.println("Enter a new String");
        String s = scan.nextLine();

        System.out.println(str.concat(s));
    }
}
```
